

News & Happenings

BIMINI
HEALTHTECH

First Quarter Recap

BIMINI Starts 2023 With Momentum - 9 Society Meetings from January to April!

We started the year with an impressive list of meetings that will span the globe. Bimini added the AACS (American Academy of Cosmetic Surgeons) meeting to our list. We also attended the ASAPS Facial & Rhinoplasty Meeting in Las Vegas and the SESPRS Breast Meeting in Atlanta.

We drew much interest from the cosmetic meeting, which featured a mix of dermatologists and cosmetic surgeons, with many PG shoutouts from the podium.

Brad Conlan on Podium at AIS (Aesthetic Innovations Summit)

The day before the Aesthetic Meeting in Miami started, our CEO was invited to participate on a panel about new technologies, including exosomes, at AIS.

The full-day summit was exciting and gave Bimini Health Tech some excellent exposure as we shared our product portfolio & planned growth.

A big thank you to **Dr. Grant Stevens** for the invitation to participate!

Fat Remains the Hot Topic on the Podium

Fat remains one of the most discussed topics at every meeting, from body enhancements to breast reconstruction, facial rejuvenation, eyelids, hair, and more.

We had a strong podium presence during these meetings and many KOL discussions. Our increasing overall corporate awareness had a definite uptick in the booth.

Dr. Michael Schenden, PureGraft customer, visiting the Booth at ASAPS

Great Evening With Aesthetic Fellowship of LA at Cars & Guitars

One of the more memorable events BHT was invited to was the Aesthetic Fellowship of LA / Cars & Guitars, sponsored by **Dr. Grant Stevens & Dr. Jay Calvert**. The event was very well attended, with over 100 doctors & residents to interact with.

Plastic Surgery Studios Event: Small Event with a Big Impact

We participated in the Plastic Surgery Channel/Studio's Spring Event in March. It was an exclusive two-day meeting with surgeons who participated with PSC and selected companies to exhibit. We also had the opportunity to do 2 filmings - one, a roundtable featuring 3 female surgeons who use PureGraft: **Dr. Caroline Glicksman; Dr. Kristi Hustak and Dr. Renee Burke**, moderated by **Dr. Bill Adams**. To view the interview, click this [link](#).

The second filming features a walk-through of all PG products designed for servicing the physicians and staff - we look to having those available soon.

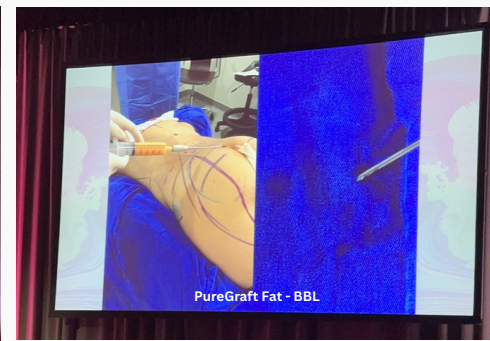

April 12 Webinar - Great Attendance!

We held another successful webinar on April 12 featuring **Dr. Louis Bucky & Dr. Steven Sigalove**. Both spoke about cases & results using PureGraft, Boost & Dermapose. It was a lively, inquisitive discussion, tips & pearls. To replay the webinar, visit the BHT website/Bimini Academy to get [link](#).

PureGraft on the Podium at ASAPS | Miami Beach

Dr. Steven Sigalove shares his love of BHT & PureGraft/ Dermapose at ASAPS!

Dr. Humberto Morelli | Aging BBL: When Fine Wine turns to Vinegar

UPCOMING MEETINGS & CONFERENCES:

We have some podium presenters and meetings we'll be at in coming months:

- CSPS Annual Meeting | San Francisco | May
- Dr. Kamakshi Zeidler on Podium for PureGraft - BTS Stockholm | June
- SESPRS Annual Meeting | Nassau, Bahamas | June
- First Mediterranean Conference of Plastic Surgery Innovations | Cyprus | June
